This a work in progress. Some edits have been made. More are needed.

Reading #6, Carol and Ron, Transcript, Part 2 of 3

0:00 now this is interesting. During
0:05 an early reading (1977) Joy [Talley, Virginia Beach psychic] said she saw a
0:07 trace of white in your auric field and
0:10 that indicated you would eventually
0:13 aligned with the God of your
0:14 understanding. She was
0:18 positive and excited about something that
0:22 she saw in the future. Well I think she
0:26 probably saw the silvery light in your
0:31 aura which really the god of your
0:35 understanding is. To know where you came
0:40 from and ruin[?] what you truly are. And so
0:45 I think that she could see she perhaps
0:48 knew our past didn't know that where you
0:53 were exactly where you were from but you
0:55 know you knew that you were linked with
0:58 elsewhere so I think that that is really
1:02 what she saw. But she saw that deep
1:07 within you the essence of you was not of
1:10 this world. Now you asked if the shape and
1:14 the color of the aura change with your
1:15 mood. Yes it does,
1:19 but your basic color does stay the
1:22 same. And yes I see changes in your aura
1:26 with different readings but you
1:29 still have the basic colors in there. Now
1:33 there are shapes that come in orders too
1:36 and so I feel that we [?] even though there
1:43 are changes in the shape ever more
1:45 colors coming in or less there's more
1:47 vibrant sometimes less vibrant it's the
1:51 also and they sort of shapes and
1:56 patterns that I see. Also when I
1:59 first started reading for you I could
2:03 see tears in your energy field, in your
2:06 aura but they seem to have healed
2:08 because you become more excited about
2:11 things.
2:12 and you said at the beginning of another
2:16 reading Johnson a georgette[?]
2:18 communication and her communication. Well
2:24 what are you doing with Project Avalon
2:27 [?]cover threads the forum? You're

2:30 communicating. But also you will
2:33 communicate with ETS. [?] I'm just going to
2:37 that you sent me photographs what you
2:41 accurately picked out the descriptions I
2:44 gave you of the places where I saw the
2:46 stargates. The banana shaped area between
2:51 the trees that was Stargate2 - and the
2:55 circular one which was Stargate1 but it
2:58 was sort of [?]fairly me and there's one
3:02 tree that stands on its own within that
3:05 circle and it is the portal is somewhere
3:09 near there and I think what will happen
3:13 to you is when you meet with et's you
3:17 may be standing under the starry sky and
3:20 I am to you that because you've no
3:23 lights around you and you may sense the
3:29 presence and hear what they say to you
3:32 that could be your first communication
3:36 and only when they know they can trust
3:39 you am a critic quite a long time they
3:44 will appear to you but they will send
3:47 you visions in your mind's eye but you
3:50 will you see when they come through the
3:55 portals and you may look you knows you
3:59 see if you're traveling a lot along a
4:02 road on a very hot day you can see like
4:06 as if there's a sort of ripple over
4:10 there the top of the road almost like
4:12 walk well that's how it appears when
4:16 they come to the Stargate it just
4:18 changes the frequency that that Stargate
4:22 is holding.
4:24 So I think this is why communication
4:28 feels very important to you. You thought
4:35 Joy was referring to a job application.
4:38 No, it's also communication with your
4:42 higher-self and that is important
4:46 because your soul is always
4:48 communicating with you.
4:50 It has threads which are communicating
4:53 with you. You put out your knowledge
4:55 to other people. You love to share
4:57 information and this is what you will do
5:02 when you communicate with the ETS. You
5:07 may not really understand that yet you
5:12 may not have thought about that, but that
5:16 is the way they will do it. They're not
5:18 going to appear in frighten you or make
5:21 you feel wow this is full of joy, beam

5:25 you up on a light from their aircraft. No
5:30 they will do it in a very subtle way
5:34 because it is very important that
5:37 everything is right. Now you said you had
5:44 a reading by
5:46 Simon Parks and he told you before you
5:51 were born that your body was being made
5:54 for a reptilian soul but you got there first.
5:57 If you talk about in this
6:00 lifetime well I think you've always been
6:05 attracted to the military. But I don't
6:09 think in this life you you were being
6:11 prepared for the reptilian soul but I
6:14 can understand why Simon saw you as a
6:17 military person with a part reptilian
6:21 soul and that goes back to the lifetime in
6:25 the Roman time when you were a military
6:29 governor. So I can understand that now.
6:34 You said that you were in the United States Marines.
6:37 That's an amazing thing and
6:41 you've had dreams about reinlisting and
6:44 you wonder why you have done it again.
6:49 You recognized some friends in your dreams
6:52 so made it more
6:55 comfortable. I think that this is
7:01 partially being of service and lots of[?]
7:08 much really but reincarnation of the
7:12 military apart from that one life, but I
7:16 think that yes, meeting up with old
7:20 friends who were probably your soul
7:24 family. So I think that that is why
7:29 you've had these dreams over and over
7:32 again because you were comfortable but
7:35 you are not comfortable with actually
7:39 really investing because you've never
7:41 done it and but I think that what you
7:46 are really living or dreaming about is
7:49 probably and the soul family. That is
7:54 what I think I'm hoping I'm explaining.
7:59 It is very difficult to do, just do this
8:01 when I'm just talking into a computer
8:03 but I'm hoping that you know you're
8:07 understanding what I'm saying.
8:08 Yes, in your previous reading I told
8:14 you, you are on the third rung of a very long ladder
8:16 and well you you're right about the journey of
8:22 self-discovery and the never ending
8:27 journey of creation because it is
8:31 infinite.

8:33 Everything is infinite. It is like the
8:36 Mobius loop where you can be on the
8:41 outside and lamenting the inside without
8:43 ever crossing over that is why the sign
8:46 of infinity is like the Mobius loop
8:50 So yes we are on that and it is
8:55 interesting because everything happens
8:58 over and over again every lifetime that
9:02 we have until we reach the point on that
9:06 ladder where we understand it all.
9:13 Then we can go back to the source and
9:19 help with creating even more. The
9:25 characteristics of the third rung,
9:28 sort of being aware, being open, being
9:34 curious and being able to start to
9:41 connect with your higher-self. This is an
9:47 important part of your awakening of the
9:50 human soul but you must remember that
9:53 your soul lives outside of your body and
9:56 connects with all the lifetimes that
9:58 you've had and ever will have on this
10:01 planet but not only on this planet on
10:04 the planet that you've lived up before
10:08 and so it's interesting really because
10:14 you're only just beginning but at least
10:17 you're not right at the bottom and as
10:20 you progress in this life probably into
10:24 your [?]a keys you will start to understand
10:27 more you will start to have more visions
10:30 what[?] thoughts, more understanding but
10:35 because the human life isn't really a
10:41 very long one as it used to be in
10:44 biblical days and your next life you
10:48 will start on I think you look at to the
10:51 fourth run but it will start at that
10:54 stage. You're asking what is at the end
10:58 of the very long ladder. Total understanding.
11:02 Total peace of being one word[?]
11:09 not just this universe but every other
11:12 universe that exists because I left old[?]
11:15 many people universes are inside black
11:18 holes and black holes everywhere not
11:21 only in this universe but beyond this
11:24 universe. And there are multiple
11:27 universes. And it is like being a cell, a
11:32 single cell in the body of what we call
11:36 God. So if you think of it in that way
11:40 you will understand how do you think how
11:43 many cells that human body has you will

11:46 understand and how big this is
11:52 and is probably even bigger than that.
11:55 Every cell has a part to play,
11:59 there is a purpose and you said maybe
12:04 those who played out more roles in the
12:06 dark team may need a longer ladder. Yes I think
12:11 that that is true and you haven't played
12:15 many roles on the shadow side of things
12:18 but you have played some. But you are,
12:23 really are changing things. You have
12:27 lived a life before where you have
12:32 worked out the karmic issues of your
12:38 past lives now I honestly think that
12:44 this lifetime you've been able to enjoy
12:47 more things and you want to spread
12:52 happiness. The part that you don't
12:56 seem to be able to get right is your
12:59 relationship with women. But you're
13:02 getting on with your life and I do think
13:05 you've had some good times with women
13:07 and I think that you would be a good
13:08 friend to women but there are some
13:12 things that just come to you from your
13:14 past
13:15 which prevent that. You said
13:18 one of the high points of excitement in
13:21 this lifetime was learning how to fly
13:24 and getting your pilot's license. Oh yes,
13:27 I think that yes, you have [?] you you
13:31 have in your life before you came here
13:35 and life on other planets too to call it
13:39 pilot in quite the way it is because
13:42 flying a spacecraft is very different to
13:47 flying a plane but being in charge of it
13:50 and understanding everything about it
13:54 definitely, because you would love the
13:57 experience of heading to the moon,
14:00 heading to other planets and seeing them
14:02 because even just flying through the
14:05 stars they just look like points in
14:08 the sky. And the excitement, I understand
14:13 that because I have had that myself. Now
14:17 you really love to know about things.
14:23 You said that you loved it when you
14:26 could be creative in your corporate
14:28 environment and analog circuit design.
14:33 I can understand that
14:36 you would like that and it's interesting
14:39 you mentioned your boss, John Ward. I

14:43 think he was, you were always destined to
14:47 meet him because I think that he was one
14:53 of your teachers, one of the dolphin
14:57 teachers, who decided that he would
15:01 incarnate in this life not as a dolphin
15:05 but as a person and I think that he was
15:13 somebody who knew and that all about
15:19 unconditional love trust and how you how
15:25 to understand human being.
15:27 Yes you do have a past life
15:31 relationship but not in the way you
15:33 think he was one of your teachers and he
15:39 knew that you were capable of so much
15:42 and wanted to give you that pride in
15:45 yourself because you didn't always have
15:48 that. You you certainly did then and
15:52 he helped. You've done an awful lot
15:55 really
15:56 and I think that you know you've you've
16:00 also spent some time and in engineering
16:03 software Quality Assurance rules but
16:06 I can understand why it didn't feel so
16:09 good because you would be an obstacle to
16:14 catch flu because you don't like things
16:20 that are not right and you know you
16:23 could see the sense in spending a little
16:25 bit of money doing things right but no
16:28 they will just why should we spend it
16:31 when we can hoodwink other people and so
16:35 you know you were coming up against some
16:39 dark forces. So this is why they said you
16:43 were not a team player but I think that
16:48 you need to learn it was a learning
16:51 thing and this was very very important
16:54 to you because in this lifetime you just
16:57 thought that everybody was like you,
16:59 completely honest completely open, and
17:02 yet they're not is because you could see
17:06 what was going to happen with this and
17:08 that they were going to be good working
17:11 [?]Hill drinking people just for money and
17:14 you really, yes, the answer you said [the lesson]
17:18 was right, learning how to deal with
17:20 powerful people and dark people. You
17:26 wonder if the future will bring more
17:28 experience of this and I I think
17:32 possibly because I think that you may
17:35 actually be dealing with people who
17:41 and government authority but also in

17:44 perhaps Health Authority and so I feel
17:49 that you possibly will. But you will be
17:53 you will know the answers you will know
17:56 how to deal with them so I think that
18:00 it's you know good but I think that if
18:03 they come, it could be something to do
18:06 with the environment around you and
18:12 something to do with health issues. Maybe
18:15 not for yourself but for somebody else.
18:18 So because remember you have a knowledge
18:22 inside you that you haven't even tapped
18:25 yet. Now you talk about your health. I
18:30 think I've mentioned this to you before.
18:32 I don't see really anything apart from, I
18:38 think there is a little nerve that sort
18:42 of activates itself. I don't see brain
18:44 tumors or aneurysms or anything like
18:47 that and I did ask you didn't I before, I
18:52 knew that I said I could see high blood
18:55 pressure and diabetes but you are a
18:57 naughty boy because you don't really
18:59 take care of those properly. You
19:04 talk about an external negative energy
19:07 or an implant biological implant could
19:11 influence your problem. They will
19:14 actually but there are things that you
19:18 can do and as you said you are adding
19:20 fruit to your diet but your diet isn't
19:22 really good and sometimes you give your
19:25 digestion far too much to deal with.
19:28 Again the biological implant which a
19:33 lot of people have, it picks up on this
19:38 and it really starts to activate nerves
19:42 in your body and you may find sometimes
19:45 that you get asked by the cramps or
19:48 tingling in your feet or your your
19:51 fingers so I think
19:54 [?]but it is important for you to
19:57 understand that, and that once you know
20:01 what you're dealing with then you can
20:04 start to feel better. You said you've had
20:09 a lot of positive feeling feedback about
20:12 hearing energies that you that you sent.
20:14 And anyway, yeah, and I know why you say
20:19 you suspected the energy of the client
20:21 is what does the healing. Yes healing
20:24 does come from within and it really the
20:28 human body has so much untapped
20:33 knowledge within their brains that they

20:37 don't that's not used this they you know
20:41 we could grow limbs again We
20:44 could do anything just about because
20:47 we're not limited we are not limited
20:51 only by what we've been taught to
20:54 believe Yes you're very right
20:59 about how the practitioner triggers
21:02 healing energy that flows but what you
21:07 are doing is [?]cell is sending also
21:09 telepathic messages to certain parts of
21:13 the body of the whole of the body and I
21:16 I'm really believing that because what
21:20 you are picking up from the client
21:23 you're doing what I am doing. But you may
21:26 not be aware of it you are picking up on
21:28 the auric field of maybe what they've
21:32 written what they said you felt the
21:34 energy and so you can direct it because
21:38 you can heal animals and you would just
21:41 need to hear the animals name or to know
21:45 what type of animal it was and where it
21:48 was and you would actually be able to do
21:53 that the energy is intelligent because
21:56 it comes from you early connects with
21:58 something in the brains of the people of
22:01 the beings of the animals that you're
22:03 healing and it activates it
22:07 and that is what I think. I'm running out
22:11 of time here
22:11 and there's still an awful lot to do and
22:14 to say oh I'm not not going to get
22:18 through it on so it's it's gosh now I
22:25 think if you talked about orion's and
22:28 stargates and yes there is some are
22:35 positive but some are very negative some
22:38 are very dominant
22:40 really and at the moment they're doing
22:44 something in Antarctica I don't know
22:48 what is happening there but something is
22:50 happening and yet some I came from the
22:56 very near to the Orion Nebula and I
23:01 always get it the wrong way around it
23:03 was hotter or happier as a star there
23:10 with that name and the beings from there
23:14 are very positive. But I think that you
23:21 know they may do support unconditional
23:25 love and joy but there are many more
23:29 let's how can control own : freaks but
23:33 they do want this world. Now you're

23:37 asking if Orion's are reptilians. No not
23:41 really I don't think that they are but I
23:44 do think that the Orion's use the
23:50 Stargate to near your home and they are
23:55 very much aligned with Orions who are
23:58 active in Antarctica and I think that
24:02 those Stargate you see where you are is
24:06 quite isolated really and they know that
24:10 you're not going to cause trouble
24:12 but they can get through there. As I
24:14 told you there is somebody in
24:17 in this country who has a Stargate on
24:21 his land. You asked if the [stargates] stay in
24:26 one place if they moved around. No
24:29 they're not moved around to stay in one
24:31 place and the stargates are used for
24:36 bringing let it will allow him and the
24:41 beings to pass through the beings and
24:44 their energies and sometimes they bring
24:47 things from their worlds with them and
24:50 deposit them because also they want
24:55 people to know that they are here
24:57 and some of the positive Orion's are
25:03 really working to persuade governments
25:09 and organizations like NASA to be open
25:17 about what they know. This is why
25:19 NASA is saying a world like Earth has
25:22 been found this has been found at net
25:24 we're talking about the strange sounds
25:27 that they're hearing the signals how the
25:30 worlds could in the moon's around the
25:33 worlds in this solar system could
25:37 support life etc etc so it's it's really
25:42 interesting and I feel that a lot of
25:49 things are going to be exposed within
25:54 the next 20 or so years. You asked if
25:59 the Stargate near your homes is of ancient
26:02 origin or are they more modern. The
26:06 circular one, Stargate One,
26:10 [?]floor to call it that is the more modern
26:13 one but the ancient one and there is an
26:18 ancient one where they used to come
26:19 before any building buildings were on
26:23 that site on that land came from oh the
26:29 beginning of the travel to this planet
26:34 because stargates and they allow things
26:40 to come through not just people or
26:43 beings for things but they can't always
26:48 live in this atmosphere and so there are

26:55 starships that come through and it's
26:58 it's a strange thing but they seem to
27:01 actually be constructed once they're
27:05 through that Stargate this is often why
27:08 people see things taking off on moving
27:11 harbouring and it's because they need to
27:15 go and be in their own atmospheres and
27:18 these ships of want of a better word
27:24 allow them to be in their own atmosphere
27:27 for periods of time before they come
27:32 back to this planet and yes I'm sorry
27:37 the voice is really going now and you
27:40 are connected to this delicately in you
27:43 it isn't a chance that you could
27:45 purchase this property it was always
27:48 always destined. I know it's not touching
27:54 your house but it's very close to your
27:56 house. It really feels, and um I think not
28:02 yet, but maybe in time you will meet a
28:07 methane breathing Orion. And no it
28:11 wouldn't have external breathing
28:13 apparatus. It would be wearing something
28:16 that actually fed directly into it
28:21 because they don't always breathe
28:23 through their nose and mouth it's like
28:26 as if they absorb it. So I think that the
28:32 Orion is going to be a gentleman not a
28:36 manipulative one because it allow
28:39 themselves to appear before you.
28:41 It could be that there could be two of
28:43 them they would want to communicate with
28:47 you. So that is what I really feel well
28:53 Ron I'm gonna have to stop it at this
28:55 stage now because I'm way all the time
28:57 and there's still many things to answer
29:00 so maybe I'll do another reading because
29:06 it's also getting late here and my voice
29:11 is going so I think I need to just stop
29:15 now and I hope I'll answer the questions
29:18 you want to do so far and if you do want
29:21 me to continue later please let
29:25 me know okay I hope you all well take
29:28 care now bye bye for now
